Shire Council  
Open New Horizons

ADOPTED: 29 JUNE 2022 | RESOLUTION: 1.06/22E  
AMENDED: 16 NOVEMBER 2022 | RESOLUTION: 6.11/22

## Statement of fees and charges

Under section 608 of the *Local Government Act, 1993* (the Act), Gunnedah Shire Council may charge and recover an approved fee for any service it provides, other than a service proposed or provided on an annual basis which is covered by an annual charge (Sections 496 and 501 of the Act).

Services for which Gunnedah Shire Council may charge a fee include:

- Supply of services and products;
- Giving information;
- Providing a service in connection with the exercise of Gunnedah Shire's regulatory function (e.g. application, inspections, certificates); and
- Allowing admission to buildings.

Changes or additions to Council fees which may be considered during the year will be advertised for twenty-eight (28) days for public submissions before adoption by Council as provided by Section 610F of the Act.

A Goods and Services Tax (GST) has been applied against the fees and charges that are subject to the GST. If GST is payable the amount shown includes GST.

Fees and Charges adopted under Section 608 of the Act are classified according to the following pricing basis:

Pricing Category	Description
A	Contribution to cost of service
B	Recovery of operating and maintenance expenses
C	Recovery of all costs
D	Recovery costs and returns
E	Benchmarking
F	Below Regulatory Fee
G	Regulatory / Statutory Fee
H	Minimum Fine
I	Regulatory / Statutory Fine
J	Contributions

In applying the above pricing basis to fees made under Section 608 of the Act, Council considers the following factors as outlined in Section 610D of the Act:

- The cost to the Council of providing the service;
- The price suggested for that service by any relevant industry body or in an schedule of charges published, from time to time, by the Department;
- The importance of the services to the community; and
- Any factor specified in the regulations.

Other factor not specifically mentioned under Section 610D of the Act may also be considered include:

- If services are being supplied on a commercial basis as part of a defined Council business;
- The capacity of the user to pay; and
- Market prices.

## Established categories for reduction or waiving of fees

Section 610E of the Act allows Gunnedah Shire Council to waive payment of, or reduce a fee, in a particular case if it is satisfied that the case falls within a category of hardship or any other category that Council has determined.

Council has determined that fees may be waived or reduced in the following categories:

Category One - Financial Hardship	<p>Council may reduce or waive fees in cases where the applicant provides evidence that the payment of the fee will impose significant financial hardship.</p> <p>In determining eligibility on the basis of significant hardship, Council will:</p> <ol style="list-style-type: none"><li>1. Apply the criteria used by the Department of Human Services (Centrelink); and</li><li>2. Require the applicant to provide reasonable proof of financial hardship which may include details of assets, income and living expenses, and such other information required to make a valid assessment.</li></ol>
Category Two - Charity	<p>Council may reduce or waive fees in cases where the applicant is a registered charity and the fee is for a service that will enable the provision of charitable services to the Shire's community.</p>
Category Three – Natural Disaster	<p>Council may reduce or waive fees in cases where ratepayers or residents are impacted by a natural disaster event, in which a Natural Disaster Declaration has been issued by the NSW Government.</p>

## Application and assessment

For the waiving or reduction of fees for Categories One and Two, applicants must apply to Council in writing using the approved application form. Council officers with delegated authority will assess and make determinations on requests for the waiving or reduction of fees in accordance with the following principles:

- Compliance with relevant legislation;
- Fairness, consistency and equity; and
- Transparency.

For Category Three, The General Manager or Council officers with delegated authority will authorise the waiving or reduction of fees following a Natural Disaster Declaration for impacted ratepayers and residents for a set period of time following the natural disaster event.

## **Developer Contribution and Servicing Plans**

Contribution Plans and Servicing Plans are a means of sharing the costs of providing the community with the infrastructure that satisfies its economic and social needs.

The *Environmental Planning and Assessment Act 1979* and *Local Government Act 1993* provides NSW councils with a formal legal framework for levying developers for the provision of infrastructure, services and amenities where the development increases demand upon Council's services and facilities.

These contributions are designed to ensure that existing ratepayers are not required to meet the cost of providing for new roads, community centres, libraries, open space and recreation facilities. This needs arises from incoming populations occupying new residential developments.

The following Contribution Plans and Servicing Plans are in place at Gunnedah Shire Council and the contribution payable is indexed in accordance with the respective plan.

- Gunnedah Shire Council Section 64 Developer Services Plan – Stormwater – April 2013
- Gunnedah Shire Council Section 64 Developer Servicing Plan – Sewerage – December 2011 (Amended July 2014)
- Gunnedah Shire Council Section 64 Development Servicing Plan – Water Supply – June 2016
- Gunnedah Shire Council Section 64 Development Servicing Plan – Water Supply and Sewerage – August 2020
- Gunnedah Shire Council Section 94 Contributions Plan – Extractive Industries – November 2013
- Gunnedah Shire Council Section 94 Contributions Plan – January 2013

Details of the current contributions payable under each plan will be made available upon request.
